OZKALE FOOD & OLIVE

High quality olive products Zeythin and Olivius are produced at Özkale Gıda facilities equipped with the latest technologies in Akhisar, district of Manisa. One of the most highly developed and technologically advanced factories in Turkey was founded in 2017. Our facilities are located on **20.000m²** including **10.000m²** closed and **10.000m²** open areas with production capacity 8000 tons. High quality olives for Zeythin and Olivius are chosen from the best olive growing regions in Turkey. Once olives collected they come to Özkale Gıda facilities to be prepared with traditional recipes and advanced technology to reach their sophisticated taste and then reach customer's tables.

Zeythin and Olivius besides wide range of black and green olives varieties offer sliced and stuffed olives as well. Natural Black and Green Olives which mostly appealing to the Turkish palates take their place among basic products range. Yuvarlama Sele Olives are flavored only with the addition of sea salt which preserve its strong taste and aroma. Yağlı Salamura Olives (Oil-cured Olives in brine) after keeping for a long time in its brine reach customers in ready to eat form by adding oil. Besides, Natural Green Olives after being slowly fermented are prepared crushed, scratched or as a cocktail to take its place ready on the tables with fresh lemon.
